

bvc. workplace.

Leave, desks and the digital work card, in one app.

Leave in spreadsheets, desk bookings in a shared file and time tracking in a third system that talks to neither. We bring them together on the Microsoft 365 you already own.

THE FLOW, IN FOUR STEPS

SIX PROCESSES, ONE APP

- | | |
|---|---|
| ■ Leave & balances
Requests per type, balances and carry-over, team calendar, leave book. | ■ Desk booking
Floor plan per zone, full or half day, find-my-team, accessible desks. |
| ■ Digital work card
Clock-in and out sent to EPFANH II, with a submission log and retry. | ■ Hybrid rules
Minimum office days, minimum staffing per team, remote-work declaration. |
| ■ Overtime & shifts
Shift roster, swap requests, overtime approval with monthly limits. | ■ Rooms & parking
Meeting-room and parking booking, plus visitor reception. |

TWO EDITIONS

- Team: Canvas + SharePoint — leave, desks, hybrid rules
- Compliance: Model-driven + Dataverse — work card & form data
- Connects to EPFANH II through the official API
- Interactive demos for both at bvc.gr

TECHNOLOGY

- | | |
|---------------------|--------------------------|
| ● Power Apps Canvas | ● Model-Driven Apps |
| ● Power Automate | ● SharePoint · Dataverse |
| ● Power BI | |

Demo: See them live at bvc.gr/workplace.html. The demos are not connected to EPFANH. Informational material — not legal advice.
